FGZ-EI Confirmation on Interim Assessment (“Feedback Session”)

The interim assessment of the doctoral project should be accomplished latest after two years of FGZ-EI membership/doctoral project work (bylaws of TUM-GS, §15 (7)).

The basis for this feedback session is:

1. a public presentation in a seminar at the university, which can be replaced with a presentation at an academic or scientific conference, and

2. a written interim report by the doctoral candidate regarding the progress of his/her academic or scientific work, which can be replaced with a scholarly or scientific paper submitted for publication if this paper provides a comprehensive view of the findings.

Hereby is confirmed for the FGZ-EI, that the doctoral candidate

Ms./Mr. _____________________________________________________________ has completed the interim assessment according to the criteria mentioned above

The public presentation ____________________________________________________________ (title)

was given on ____________________________ (date).

The doctoral candidate

☐ has written an interim report on the progress of the scientific work or

☐ has published a scientific paper with title ____________________________________________________________ (title)

at/in ____________________________ (name of journal/conference)

The first academic supervisor ________________________________________________ (name) explicitly recommends the continuation of the doctoral project.

__________________________ (place), this ____________________________ (date)
